Alliance of Ohio

The North Central Workforce Alliance of Ohio is recognized by the State of Ohio as one of seven Regional Collaboration Sector Partners.

Purpose:

The Business Advisory Council will provide a partnership between member schools and the business communities of Ashland, Holmes, and Wayne counties.

The partnership will:

-Advise local districts on changes in the economy and job market

-Advocate for the employment skills most critical to business and industry and the development of curriculum to teach these skills

-Aid and support local districts by offering suggestions for developing a working relationship among businesses and educators

Tri-County Educational Service Center Business Advisory Council Consortium

Mission Statement:

The Business Advisory Council is committed to building curriculum and broadening exposure to the business world in order for students to extend their learning beyond the classroom by gaining valuable input from members regarding essential skills students need to be successful in the 21st century and beyond.

"Happiness does not come from a job. It comes from knowing what you truly value and behaving in a way consistent with those beliefs." - Mike Rowe, Host, Dirty Jobs

"Businesses and educators must communicate to each other more often, more clearly and more candidly about their needs and expectations. Collaboration will be the key – to creating economic opportunity for our youth and adult workers, to strengthening the competitiveness of Ohio businesses, and to spurring economic growth and prosperity for all." –Governor's Office of Workforce Transformation, Building Ohio's Future Workforce, page 20

Implementation & Progress

Throughout the 2018-2019 school year, Tri-County Educational Service Center Business Advisory Council made steady progress on the implementation of its mission and purpose.

In order to better connect businesses with schools and develop a strong talent pipeline for employers, collaboration between schools and businesses must continue in a systematic and consistent way.

The Business Advisory Council believes that the participation and involvement level of area school districts and businesses is high and continually gaining momentum. With each scheduled activity, partnerships of the Business Advisory Council school districts and business members continue to expand.

Through the implementation of career advising requirements, students in area school districts are participating in the three pillars of Career Connections: Career Awareness in Elementary, Career Exploration in Middle Grades, and Career Planning in High School. It is the aim of the Business Advisory Council for all graduating students to have a plan and be prepared for one of the three "E's": Enrollment in Post-Secondary Education, Enlistment in the Military, or Employment (including apprenticeship).

The Business Advisory Council believes that the focus for career awareness, exploration, and planning must be tailored for each individual student. The Business Advisory Council intends to shift the mindset of a "college for all" approach that has been the focus and message sent to parents, educators, and students for almost two decades. It is increasingly clear that education, apprenticeship, and training strategies need to invest more time and attention toward assisting students with an upfront look at what interests them as individuals, and how to align those interests and their strengths with an occupation. The final step is the placement of students on appropriate career pathways according to those interests, skill sets, and strengths. Informed career exploration can broaden students career options toward numerous viable pathways to occupational success.

The Business Advisory Council will strive to improve business and education relationships to support students in connecting their current learning to future work.

Events, Activities, & Programs

Tri-County Educational Service Center Business Advisory Council member districts, business partners, community, and area workforce development entities partnered throughout the school year for events, activities, and programs that support and uphold the mission and purpose of the Business Advisory Council.

Specifically, the Business Advisory Council school districts and business partners participated in:

Advice & Recommendations

Employment Skills and Curriculum Development

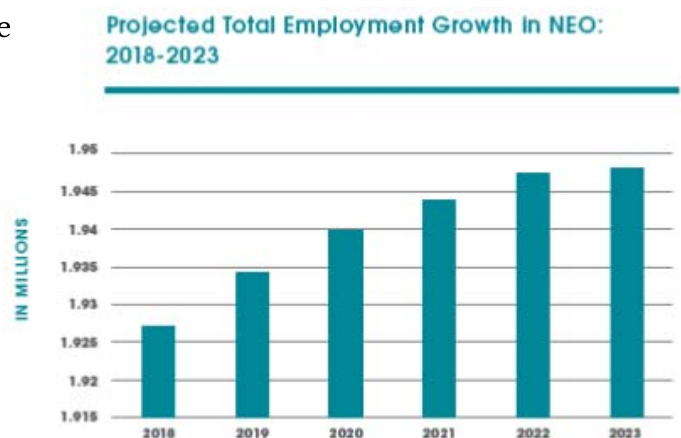

A goal of the Business Advisory Council is for students to gain better awareness of job requirements, career opportunities, and career pathways. The recommendation of the Business Advisory Council is for school districts to engage students in attaining the OhioMeansJobs-Readiness Seal. The OhioMeansJobs-Readiness Seal is a formal designation students can earn on their high school diplomas and transcripts, indicating they have the personal strengths, strong work ethic and professional experience that businesses need. A work group has been formed with Heartland Education Community, Orrville City Schools, Orrville Chamber, OHuddle, Orrville Police Department, Tri-County ESC Career Connections, and business professionals to develop a plan to support students in earning this credential. The Business Advisory Council supports and endorses the OhioMeansJobs-Readiness Seal's 15 identified work skills along with the pledge to be drug free.

Job Market Changes and Employment/Future Job Availability

According to information published by JobsOhio and TeamNEO the top ten occupations with projected new growth in Northeast Ohio from 2018-2023 are as follows:

- Building and Grounds/Cleaning and Maintenance
- Business and Financial Operations
- Community and Social Service
- Construction and Extraction
- Computer and Mathematical
- Management
- Healthcare Practitioners and Technicians
- Personal Care and Service
- Healthcare Support
- Food Preparation and Related Service

Projected job & employment growth in the Northeast Ohio area is expected to continue to increase.

Advice & Recommendations Continued

Furthering Relationships among Businesses, Labor Organizations, and Educational Personnel

The Business Advisory Council recommends the continued collaborative efforts between workforce development entities including North Central Workforce Alliance of Ohio and Wayne Economic Development Center. Continued relationships with local chambers of commerce such as Ashland Area Chamber of Commerce, Orrville Area Chamber of Commerce and Wooster Area Chamber of Commerce have proven beneficial for local school districts.

The Tri-County Educational Service Center Business Advisory Council will continue to connect business and education in order to develop individuals with knowledge, skills, competencies and credentials that meet the needs of employers, especially those seeking to fill in-demand jobs.
