

MARCH 1, 2025

ANNUAL JOINT STATEMENT

TRI-COUNTY EDUCATIONAL SERVICE CENTER
BUSINESS ADVISORY COUNCIL CONSORTIUM

*Business Advisory Council
Plan Issued by the Tri-
County Educational Service
Center Governing Board and
the Business Advisory
Council representing
Tri-County Educational
Service Center and its
member districts.*

Tri-County Educational Service Center Business Advisory Council Consortium

This consortium was formed in accordance with the provisions of Ohio law (Ohio Revised Code Section 3313.82) requiring every school district and educational service center to have a Business Advisory Council and to meet the requirements of Ohio law (Ohio Revised Code Section 3313.821) which directs the development of standards for the operation of Business Advisory Councils.

2024 Business Advisory Councils

Tri-County Educational Service Center Business Advisory Council Consortium

Mission Statement:

The Business Advisory Council (BAC) is committed to building collaborative partnerships among education, business, and community. The BAC will advise school districts on curriculum and broadening exposure to the world of work in order for students to extend their learning beyond the classroom and gain the valuable essential skills needed for success after graduation.

Purpose & Responsibilities:

The Business Advisory Council will support partnership between member schools and the business communities of Ashland, Holmes, and Wayne counties.

The partnership will:

- Advise** local districts on changes in the economy and job market as well as projected in-demand jobs in the region
- Advocate** for the employment skills most critical to business and industry and the development of curriculum to teach these skills
- Aid and support** local districts by offering suggestions for developing a working relationship among businesses and educators

Students from the Wayne County Schools Career Center speak to Envision Your Future Participants

**"Choose a job you love, and you will never have to work a day in your life."
- Confucius**

BAC Annual Joint Statement

Joint Statement – March 1, 2025

In accordance with Ohio Revised Code 3313.82 and 3313.821, the Tri-County ESC Business Advisory Council (BAC) and the Tri-County Educational Service Center (ESC) Governing Board submit this joint statement outlining how the council has fulfilled its responsibilities during the 2024-2025 school year.

Business Advisory Council Structure & Leadership

The Tri-County ESC BAC continues to operate under its current leadership and structure, with no changes to membership or governance.

Progress Toward 2024-2025 BAC Goals

The Tri-County ESC BAC set ambitious goals for the 2024-2025 school year, with a focus on:

- Developing Professional Skills for Future Careers
- Building Business-Education Partnerships
- Coordinating Career Exploration Experiences

Accomplishments

✓ Envision Your Future (EYF) Program Growth:

- Participation in EYF has skyrocketed, increasing fivefold from 10 students during the 2023-2024 school year, to 50 students this year.
- Students have engaged in hands-on career exploration, including trade demonstrations led by the Wayne County Schools Career Center, question and answer session with panelists, and interest assessments.
- The program has successfully connected students with career pathways in employment, enrollment (college), and enlistment (military/law enforcement).

✓ Vital Connections & Teacher Bootcamps:

- Planning is underway for the Holmes County Teacher & Business Bootcamp to mirror successful initiatives in Wayne and Ashland counties.
- Vital Connections schedules have been set for Holmes & Wayne Counties, ensuring continued collaboration between educators and industry leaders.

✓ TransfrVR Career Exploration Initiative:

- The TransfrVR program has launched in elementary schools to introduce students to career pathways using immersive virtual reality experiences.
- Educators and student ambassadors from the Wayne County Schools Career Center have been trained to facilitate these experiences.

✓ NCWA Industry Sector Partnership Grant:

- The North Central Workforce Alliance (NCWA) received an Industry Sector Partnership Grant supporting key Tri-County ESC BAC initiatives.
- Funds will be utilized for partnerships with Junior Achievement of North Central Ohio and their Destination Careers Event

BAC Annual Joint Statement

Challenges & Barriers

🚧 Parent Manufacturing Night – Low Attendance:

- The Parent Manufacturing Night aimed to connect families with career opportunities in local industries.
- While attendance at Parent Manufacturing Night was lower than expected, this highlighted the need for enhanced outreach and engagement strategies to connect families with workforce opportunities.
- The BAC will explore new outreach strategies to better engage parents and students in future events.

New Partnerships & Adjustments

The Tri-County ESC Business Advisory Council continues to explore opportunities to enhance career readiness and workforce connections.

✅ BAC Grant Application – Expanding Career Readiness Resources

In early February, the ESC applied for a Business Advisory Council (BAC) Grant, seeking short-term funding to enhance career awareness, exploration, and planning initiatives. The proposal focuses on developing a comprehensive toolkit for school districts and businesses, outlining local career pathways and workforce opportunities. A primary goal is to expand post-graduation options for students outside of career-tech and traditional college-prep tracks. If awarded, these funds will support the expansion of pre-apprenticeship programs, work-based learning opportunities, and Ohio's Job Readiness Seal initiative, providing students with valuable workforce credentials. The ESC anticipates an update on the grant decision in the coming months.

✅ Expanding Pre-Apprenticeship Pathways

Recognizing the growing demand for alternative graduation pathways, the ESC is actively working with three additional school districts to develop pre-apprenticeship programs that will provide students with hands-on workforce training and industry-recognized credentials. These programs will align with state-approved graduation options, offering students a direct connection to high-demand career fields while earning real-world experience that enhances their employability. By expanding pre-apprenticeship pathways, the BAC aims to increase student participation in work-based learning and strengthen partnerships with local employers.

BAC Annual Joint Statement

New Partnerships & Adjustments (continued)

✓ Ashland University Partnership – Free Graduate Credit for Teacher Bootcamps
Through a strategic partnership with Ashland University, the ESC offers complimentary graduate credits to educators participating in the Vital Connections (Wayne/Holmes Counties) and 2 B Connected (Ashland County) teacher bootcamp programs this summer. These bootcamps provide educators with immersive experiences, including on-site business tours and hands-on learning with local employers. Participants engage in research, discussions, and analyses of current job market trends, integrating these insights into curriculum development. This initiative ensures that classroom instruction aligns with in-demand career skills, effectively bridging the gap between education and industry needs.

✓ Collaboration with North Central Workforce Alliance (NCWA) – \$100,000 Industry Sector Partnership Grant

The BAC played a pivotal role in assisting the North Central Workforce Alliance (NCWA) in securing a \$100,000 Industry Sector Partnership Grant from the Governor’s Office of Workforce Transformation. This grant funds collaborations between businesses, educators, and community leaders to develop a skilled regional workforce through hands-on learning initiatives and industry-aligned programming. The BAC's programs and initiatives were integral to the grant proposal, highlighting successful models of workforce development. The awarded funds will support various programs, including Destination Career, a Junior Achievement initiative introducing students to career opportunities through hands-on experiences, and teacher bootcamps that immerse educators in local industries. This collaboration underscores the BAC's commitment to fostering a well-prepared workforce by uniting education and industry stakeholders.

These initiatives reflect the BAC’s ongoing commitment to expanding career pathways, strengthening school-business collaboration, and ensuring that students and educators have the resources needed for success in a rapidly evolving workforce.

Students at the Wayne County Career Expo received valuable workplace insights as Goodwill of Wayne County staff shared tips for success on the job.

BAC Annual Joint Statement

Progress Toward 2024-2025 BAC Goals: 9/10 Accomplished

The Tri-County ESC Business Advisory Council set measurable goals for the 2024-2025 school year, focusing on career readiness, workforce partnerships, and hands-on career exploration. On a scale of 1-10, the BAC has successfully accomplished a 9, with strong progress in expanding student participation, enhancing business-education collaboration, and implementing innovative career exploration initiatives.

While the Envision Your Future Program, TransfrVR Career Exploration, and business-education partnerships have been significant successes, the low attendance at the Parent Manufacturing Night posed a challenge in fully engaging families in workforce development opportunities. Moving forward, the BAC will develop new outreach strategies to better connect parents and students with career-focused events.

Overall, the 2024-2025 BAC initiatives have made a substantial impact, and the council remains committed to expanding career pathways, strengthening workforce partnerships, and ensuring that both students and educators are equipped with the tools needed for success in a rapidly evolving job market.

**"Dreams don't work unless you do."
- John C. Maxwell**

Joint Statements of the Tri-County Educational Service Center Business Advisory Consortium can be found posted online at the Tri-County Educational Service Center Website.
